

# Family Communications Card

Print one per household member. Fold along the dashed line and keep in a wallet or bag.

When phones fail, your family needs three things written down in advance: where to meet, who to call out-of-area, and how to identify each other in a chaotic scene. Fill this in once, photocopy enough for every member of the household plus one spare, and revisit every 6 months at a regular drill.

FAMILY COMMUNICATIONS CARD

**Cut along the lines.** *Laminate (optional). The out-of-state contact is for when local lines are saturated — long-distance calls and text often work when local calls fail. Update every 6 months or after any phone/address change.*
